MEMORANDUM FOR: Chief, Geography Division
Chief, Cartography Division
Chief, Publication Division
Chief, Editorial Division

SUBJECT: Credit Line for NPIC

In a telephone conversation with Mr. Brammell, the Director, NPIC, clarified his request that the NPIC credit line be retained on all aerial photographs. He said this need only be done when NPIC actually has worked on the photographs by providing intelligence data or annotations. In the case of the NIS he further agreed that a single attribution in the front of the book, probably in the contributor statement, would suffice.
